

This is the Food Chain Song

By Jody Jensen Shaffer

Sung to the tune of "Frosty the Snowman"
Inspired by Mr. Heath on YouTube

This is the food chain,
And it shows where energy goes.
It begins with the sun
And includes everyone,
And it shows how energy flows.

Verse

Plants are producers.
They're the next step on the chain.
'Cuz they make their own food,
Which is really good.
Give them light and a little rain.

Verse

Consumers eat both plants and animals.
They love to munch!
Cricket, mouse, snake, hawk, fox, bear.
We see them CREEP, LEAP, CRUNCH!

Chorus

OH....

This is the food chain,
And it shows where energy goes.
It begins with the sun
And includes everyone,
And it shows how energy flows.

Verse

Munchity, munch, munch,
Crunchity, crunch, crunch.
Look how energy flows!

Bridge

Munchity, munch, munch,
Crunchity, crunch, crunch.
That's how the food chain goes!
